

If you are having issues connecting to the FMIS UPK training website, please try the following steps:

Go to the UPK website first <http://upk.nnooc.org>

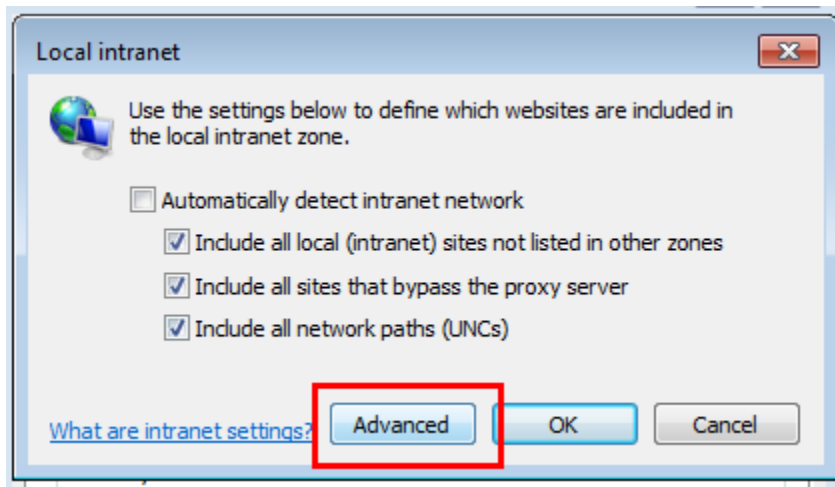

While on that page, click to the Tool button, then click on the Internet Options

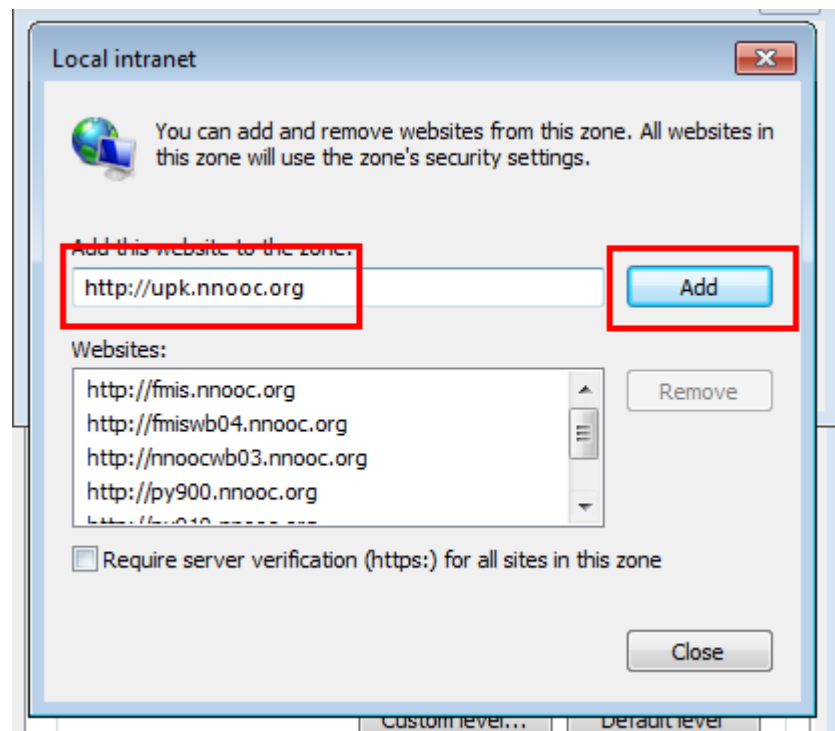

Click the Security tab, then click on Local Intranet and then click on Sites

When the window opens, click the Advanced button

Make sure the UPK website address is in the box, then click add.

Once you have added the page, click Close and then Click OK to close all the other windows.

Then close the internet explorer window and open up a new one and return to <http://upk.nnooc.org>

And try accessing again.
