RFP# 25-02-3586GC

Scope of Services

The Owner is seeking proposals for **bundled fiber/internet** connections and will accept proposals from Service Providers for **Leased Lit fiber with internet solutions and high-speed data services**. The Respondent will include in their proposal all the costs necessary to provide, construct, install, program, maintain, and monitor the services requested. All maintenance costs associated with any on-site premise equipment provided as an integral part of the Respondent's proposed service shall be their sole responsibility. Per the requirement of the E-Rate Program, the services requested

1. **The first requested service is a Lit Fiber with Internet Ethernet service to the UNI(s) located at each of the sites as listed on Attachment "A" Site Schedule, section 1.**
2. **The second requested service is a Point to Point circuit at each of the sites as listed on Attachment "A" Site Schedule, section 2.**
3. The available bandwidth shall be a of 1GB. Pricing is also requested for 100Mbps, 200Mbps, 500Mbps, 5GB, and 10GB circuits. Considering a symmetric throughput (upload and download).
4. **The Respondent will provide a separate price for all one-time special construction** and/or build-out costs, including but not limited to: conduit/trenching, interior pathways, cabling, terminations, construction of network facilities, route assessments, ROW access and/or easement assessments, traffic control and permits, surveys, testing, design and engineering, and project management to provide the requested service connection to the Owner's designated demarcation point and also a separate proposal to amortize the cost of the construction into the monthly contract cost.

The cost of one-time construction and/or installation fees as necessary by the bidder to provide their proposed service. For E- Rate purposes, special construction refers to the upfront, non-recurring costs associated with the installation of new fiber to or between eligible entities. If no new fiber is being installed, then any installation costs are considered standard, non-recurring costs (NRC). The Owner may seek funding for special construction charges relating to leased lit, leased dark and self-provisioned fiber. Special construction charges eligible for Category One support consist of three components:

- a) Construction and network facilities
- b) Design and Engineering
- c) Project Management

****Note**** The term special construction does not include network equipment necessary to light fiber, nor the services necessary to maintain the fiber.

Charges for network equipment and fiber maintenance are eligible for Category One support as separate services but not as special construction.

All options can include special construction or one-time E-Rate eligible non-recurring costs as well as E-Rate eligible recurring circuit costs. All proposals for solutions requiring special construction must only include capacity and special construction necessary to deliver service to the Owner. To the extent that the winning Respondent installs additional strands of fiber for future business ventures, the winning Respondent assumes full responsibility to ensure those costs are allocated out of the special construction charges to the Owner in accordance with FCC rules and orders. If, after issuance of the Funding Commitment Decision Letter (FCDL), USAC of the FCC determines that the winning respondent did not cost allocate those charges associated with the additional strands, the Owner will not be responsible for reimbursing the winning Respondent and the winning Respondent will assume all responsibilities deemed ineligible by USAC.

Based on the bids and both a short term and long-term cost effectiveness analysis, The Navajo Nation Broadband Office will determine which, if any, of the proposed solutions or some combination of solutions is acceptable. The specifications related to each site are listed on the Attachment A Site Schedule.

5. All RFP proposals will include any/all costs associated with switching service from the Owner's existing service provider. The Respondents' submittal of a proposal is an acknowledgement of this requirement.
6. Customer Premise Equipment (CPE), to provide the service requested.
 - a) **The demarcation hand-off will be an Ethernet Fiber Optic connection.** Respondent will provide and maintain all premise equipment necessary to provide the Owner with the specified hand-off type of service requested.
 - b) All solutions must terminate service or infrastructure in the demarcation point at the site address and MDF location as specified in the RFP. Solutions bringing service to the property line but not to the demarcation point are not acceptable. Respondent must specify the specific demarcation setup included in the base fee.
7. The requested service shall provide for both physical and logical separation of Owner's traffic through the public switched network. The Respondent shall, as determined by the scope of their proposed service, provide all necessary equipment, software, and/or professional services, including but not limited to Ethernet Virtual Connections (EVC), to accomplish this requirement.
8. Full duplex operation (connection shall be bi-directional)
9. The requested service shall allow the following Network Protocols:
 - a) TCP/IP protocols
 - b) 802.1d and 802.1q QoS on the entire circuit
 - c) All Layer 1 and Layer 2 protocols, minimum Layer 3 (EIGRP, IGMP, IPSEC, OSPF & RIP)

- d) Multicasting (IGMP with PIM, SM or DM)
10. The Respondent shall supply an industry standard Service Level Agreement (SLA), to ensure the following Objectives are maintained:
- a) No other bidder's customers shall have physical or logical access to the Owner's traffic/VLAN.
 - b) Network availability: 99.99%
 - c) Packet Delivery Rate: 99.99%
 - d) Network Latency: 30ms, one way
 - e) Mean Time to Repair: 4 hours, end-to-end, including local loop.
 - f) 24/7/365 monitoring of the circuits
 - g) The Service Provider, at no time, shall limit or throttle the capacity of the circuit, for any reason.
11. No proposal shall be accepted, or contract awarded to a Respondent:
- a) Who is not licensed in accordance with the law.
 - b) Who does not hold a license qualifying them to perform work under this contract in the State of New Mexico.
 - c) Who does not hold a valid Service Provider Identification Number (SPIN) and is in good standing with the FCC/USAC.
 - d) Who has not successfully performed projects of similar character and scope to the proposed work and be capable of providing telecommunication services under the Universal Service Support Mechanism.

Site Conditions

It is the responsibility of the Respondent to be informed of all conditions under which work is to be done before submitting proposals. No additional costs will be incurred by the Owner or considerations given to any claims by the bidder based on a lack of knowledge of existing conditions. The submission of a proposal is an acknowledgement and agreement to the stipulation.

Because the geographic area is so large and remote, it is anticipated that multiple Service Providers may choose to bid as few as only a couple of the sites or as many as all of the locations listed in this RFP. But each site must be bid on separately and contracts will be issued by each location or group of locations as there may be multiple agencies or departments who are participating in this RFP who will need to sign their own contracts with their Service Provider(s). Failure to bid for each location separately will cause those Service Provider(s) to be deemed non-responsive. If there is a cost savings to "bundle" some of the sites together or of the Service Provider can make a case to reduce the price the cost of installation by "bundling" those sites, they can provide alternate pricing for such sites.

E-Rate Requirements

The services requested in this RFP are dependent on funding from the E-Rate program. The Owner expects that each prospective Respondent will make themselves thoroughly familiar with all applicable rules and regulations regarding the E-Rate program. For further information regarding the E-Rate program, please reference the USAC Schools and Libraries website at: www.universalservice.org/sl/

All contracts entered as a result of this RFP and the associated Form 470 will be contingent upon:

1. Funding approval by the SLD.
2. Approved funding amount equal to the funding amount as requested on the Form 471.
3. The Respondent providing, at the time of bid, and maintaining a valid Service Provider Identification Number (SPIN) consistent with the type of service requested in the RFP.
4. A certified Form 486 filed by the Owner and/or written "Notice to Proceed" from the Owner to the winning Respondent to initiate service. The Service Provider must contact the Owner prior to work proceeding.

Per the requirements of the E-Rate program, no billing and/or service may begin for this contract prior to July 1, 2025, and may not extend past June 30, 2026. Per E-Rate rules, applications will be submitted each year of multi-year contracts for funding consideration.

The Respondent is required to provide the Lowest Corresponding Price (LCP) for equipment and/or services as has been provided to other customers in the area. In the event of an audit and a rule violation pertaining to LCP, regarding a service provider *not* providing the LCP, any funds that are requested to be returned to compensate for the difference or any rule violation will be the responsibility of the service provider that has failed to provide the LCP.

Invoicing

The Owner has the right to choose the type of invoicing method to pay for the services rendered. The Respondent acknowledges this right upon submission of a response to this request.

Service Provider Invoicing

The Owner's discount percentage rate, as determined on Form 471, will be the maximum that the Owner is liable for. The Respondent will be responsible to invoice USAC for the remaining balance, when using the Service Provider Invoice (SPI) method, or Form 474. Prior to invoicing USAC for the service rendered, the Respondent agrees to provide the Owner with a copy of the USAC invoice to verify that the service has been delivered and accepted by the Owner before the Respondent invoices USAC.

BEAR Invoice Method

When utilizing the BEAR method of invoicing, the Respondent will invoice the Owner for the entire amount of the service rendered. The Owner will invoice USAC for the discounted portion of the services provided.

Termination

The Owner reserves the right to terminate any contract and/or agreement with any Respondent, even the apparent winner, regardless of USAC's approval or denial of funding; any funding requested because of this RFP, prior to any work starting. The Owner reserves the right to accept the pricing proposal solely dependent upon SLD approval.

Program Review

All E-Rate applications, including special construction, are subject to detailed questioning during Program Integrity Assurance (PIA) review where the cost of proposed special construction will be reviewed based on the cost of historical fiber builds in the region. Additionally, certain information on necessary special construction is needed to accurately fill out Form 471. Respondents are required to complete the table in 'Appendix A'. Additionally, Respondents are required to submit the additional information described in 'Appendix A', as this information will be required in a PIA review. If Respondents do not submit the additional information as listed in 'Appendix A', the Respondents' bid can be deemed non-responsive and excluded from the bid.

Contract Requirements

The Owner intends to use the Respondents supplied Service Agreement to formalize any contractual relationship that results from this RFP. However, the following provisions **MUST** be specifically included in the Respondent supplied agreement for the Respondents proposal to be considered responsive. Failure to include any or all these provisions shall result in a Non-Responsive determination and no further evaluation of the Respondents' proposal will be considered.

1. **Terms and Conditions** – The Owner requests proposals that are based on a three (3) year contract term with two (2) optional one (1) year extensions. The initial three (3) year contract term shall start on July 1, 2025, and end on June 30, 2028, not to exceed five (5) contract years. If new services are installed, the requested services should be installed by 6/30/2026. An extension option must be mutually acceptable to both parties. Any request for and acceptance of an extension shall be in written form and shall include any requests and justifications for adjustment in compensation. If Respondents can provide "better" rates by extending the length of the contract, provide this option as part of the RFP response.
2. **Growth Clause** – Growth services may or may not be requested by the Owner during the contract term. The Respondent shall include a "Growth Clause" with the maximum charges per month. The "Growth Clause" shall not require a change in contract terms. The "Growth Clause" shall include a price for all existing service types plus any additional services of the same type/speed and bandwidths as listed

on Attachment A Site Schedule. Respondent shall include growth bandwidth and growth pricing in the contract for any potential upgrades, **as per E-Rate requirements.**

25	Ability to offer turn-key solution (limited effort on behalf of applicant) ³
10	Value-added offerings ⁶
100	Total Points
5	Extra Points for Native American Owned Business ⁷

Notes:

1: **E-Rate eligible circuit cost** is the total cost of ownership that includes special construction and NRC in addition to MRC and includes any and all services that will be applied on a monthly recurring basis. E.g. for self-provisioned fiber, internet access, recurring circuit costs to operate, maintain, and any other monthly service fees. E-Rate special construction costs should be clearly indicated and separated from any other E-Rate eligible NRC cost. All services offered must be eligible for E-Rate Category 1 discounts.

2: **Signed good faith negotiation letter from tribal government:** Is a letter or form signed by the applicant, Governor, or other designee of tribal lands that will be trespassed to complete the scope of work in this RFP. The letter must state that the tribe and Respondent have begun good faith negotiations to respect tribal authority and processes. Good faith negotiation letters should be completed for each tribal land for in the network design for maximum points.

3: **Turn-key solution:** the district has a clear preference for providers who can offer a “bundled” holistic, all-in-one solution and effort required by the Navajo Nation Broadband Office before, during, and after installation is minimal. Therefore, preference will be given to bidders who either offer all services independently or via 3rd party subcontractors as a complete package including fiber construction, terminating equipment inside the premise location, fiber installation and operations, and scheduled and unscheduled maintenance.

4: **Symmetrical scalable solutions:** preference will be given to solutions based on technologies that are symmetrical and scalable and can support a 20-year life span with an estimated 20% increase in broadband consumption annually, as the Navajo Nation Broadband Office believes that this will provide maximum future scalability. Respondents are encouraged to outline how solutions could be scaled into the future, including potential pricing increments for additional bandwidth that may be likely during the contract period.

5: **Terms, conditions, and insurance:** preference will be given to bidders that provide the most favorable conditions and insurance for implementation and ongoing service. These elements include (but are not restricted to): 24x7 response availability, demonstration of bonding, coordination with USIC and oversight of 811 participation, etc.

6. **Value-Added Offerings:** Respondents can submit any other information they deem necessary to highlight accomplishments, honors, services, etc. that advance excellence toward and a value add to the development of a Navajo Nation Broadband Office and it's goals to improve academic achievement and post-secondary education pursuits in Native America.

7. **Navajo Owned-Business:** If the organization is native or tribally owned, please submit a copy of your business license issued by your tribe or any documentation that references the Company is a whole owned subsidiary of a tribe.

Material Requirements

- Material will comply with those standards established by UL or NEMA and shall be a commercial grade. All materials will be new and free from defects.
- The selected contractor and its subcontractors will provide all material management to ensure that the project remains on track according to the project milestones,
- All due caution will be exercised in transporting and off-loading all materials to prevent any damage during shipping or placement. Any damage to any materials after their initial receipt and inspection by the respondent will be the sole responsibility of the respondent, who will replace such damaged hand holes at no additional expense to the Navajo Nation Broadband Office.
- Buried conduit shall be single or multiduct. Multiduct shall include at least three innerducts.
- Conduit utilizing EMT (Electrical Metallic Tubing) multi-duct should include at least three innerducts. EMT fitting shall be gland or set screw type, and each conduit shall be equipped with a graduated pull tape or rope.
- Unless specified by right-of-way owner, crossings will be up to two conduits, PVC-Sch 80 or better.

- Connector types should be LC unless otherwise specified by the Navajo Nation Broadband Office.
- Any warranties associated with the fiber and any other outside plant materials must be reverted to the Navajo Nation Broadband Office as the fiber owner upon completion of construction

Specifications

Survey

- Comply with all ordinances and regulations. Where required, secure permits before placing or excavating on private property, crossing streams, pushing pipe or boring under streets and railways. Pre-survey shall be done prior to each job.
- Respondent will locate underground lines of third parties in cable route area

Permits and Traffic Control

- The respondent must adhere to all applicable laws, rules and requirements and must apply for permits to place infrastructure per specification per tribe, county or city ordinance applicable to where the infrastructure is being placed.
- All traffic control, in accordance with local, state, county, or permitting agency laws, regulations, and requirements, will be the respondent's responsibility. The respondents' construction schedule will take into consideration sufficient time for the development and approval of a traffic control plan.

Tracer Wire Installation

- Tracer wire shall be placed with all conduit installed unless armored or traceable cable is used. The respondent will provide the tracer wire and shall install, splice and test (for continuity) the tracer wire. If the tracer wire is broken during installation, the wire should be repaired and tested for continuity after repair.
- For multi-duct installation, install a 5/8" X 8" copper clad ground rod in the hand-hole located on public right-of-way. Place a #12 insulated copper locate wire from the ground rod to the fiber optic termination room or to the outside of the building directly below the pull box and terminate on one side of an insulated indoor/outdoor terminal block to the master ground bar in the fiber optic termination room or place a ground rod on the outside of the building. Locate block in an accessible location. This is for "locate purposes only," not for grounding purposes. Note on as built where ground is placed and tag located wire as "locate wire."

Depth of Burial

- Except where otherwise specified, the cable shall be placed to a minimum depth of 36". Greater cable depths will be required at the follow locations:
 - Where cable route crosses roads, the cable shall be placed at a minimum depth of 48" below the pavement or 36" below the parallel drainage ditch, whichever is greater, unless the controlling authority required additional depth, in which case the greatest depth will be maintained.
 - Where cable crosses existing sub-surface pipes, cables, or other structures: at foreign object crossings, the cable will be placed to maintain a minimum of 12" clearance from the object or the minimum clearance required by the object's owner, whichever is greater.

Highway, Railroad, and Other Bored Crossings

- All crossings of state or federal highways and railroads right-of-way shall be made by boring and placing a pipe casing. The cable shall be placed through the pipe casing. Country roads and other roadways shall be bored, trenched, or plowed as approved by the appropriate local authority.
- All work performed on public right-of-way or railroad right-of-way shall be done in accordance with requirements and regulations of the authority having jurisdiction there under.
- Respondents shall give all notices and comply with all laws, ordinances, rules and regulations bearing on the conduct of the work as drawn.
- Where the cable route crosses railroad right-of-way, the cable shall be placed at a minimum depth of 60" below the railroad surface or 36" below the parallel drainage ditch, whichever is greater, unless the controlling authority requires additional depth, in which case the greatest depth will be maintained.

Cable Markers

- Cable markers shall be placed within 48 hours of cable installation. Unless the right-of-way or property owner specifies otherwise, cable markers shall be placed at all change in directions, splices, fence line crossings, at road and stream crossings, and other points on the route not more than 1,000 feet apart.
- In addition, on highway right-of-way, the markers shall be located at the highway right-of-way line. Markers shall always be located so that they can be seen from the location of the cable.

Hand Holes

- Hand holes will be placed in accordance with standard industry practice following the specifications provided in the construction plans, typical drawings, and detail drawings. Special attention and planning must be exercised to ensure accessibility by other groups after construction has been completed.
- Buried hand holes unless otherwise stipulated by the drawings will be buried with 12" to 18" of cover at final grade.
- Immediately after placement, the soil around and over the hand hole will be tamped and compacted. Should any washouts occur, the respondent will be responsible for correcting the problem immediately without additional cost to the owner.
- After cable placement, all ducts will be sealed.
- All splice hand holes/manholes will be grounded
- A minimum of 100' coil of cable shall be left in each hand hole/building for splicing use.

Splicing

- Fiber to fiber fusion splicing of optical fibers at each point including head ends is required.
- Complete testing services, such as end to end, reel testing, and splice loss testing, ORL, power meter/laser source testing and WDM testing is required.
- Individual splice loss will be 0.10 dB for single mode unless after 3 attempts these values cannot be achieved, then the fibers will be re-spliced until a splice loss within 0.05 dB of the lowest previous attempts is achieved. Splice loss acceptance testing will be based on the fusion splicer's splice loss estimator.
- All cables to buildings shall be fusion spliced within a minimum of 50' of entering a building at a location to be determined by the owner with an existing single mode fiber and terminated at customer's rack.

Aerial Plant

- The Navajo Nation Broadband Office is open to aerial fiber runs using existing utility poles, but respondent must adhere to pole owners' requirements for clearances, spans, grounding, guys and attachments.

Testing Cable

- The respondent shall be responsible for on-reel verification of cable quality prior to placement.
- Completed test forms on each reel shall be submitted to the owner.
- Respondent assumes responsibility for the cable after testing. This responsibility covers all fibers in the cable.
- The respondent shall supply all tools, test equipment, consumables, and incidentals necessary to perform quality testing.
- The cable ends shall be sealed upon completion of testing.
- In addition to splice loss testing, selected respondents will perform end-to-end insertion loss testing of single-mode fibers at 1310 nm and 1550 nm from one direction for each terminated fiber span in accordance with TIA/EIA-526-7 (OFSTP 7). For spans greater than 300 feet, each tested span must be tested to a value less than or equal to the value determined by calculating a link loss budget.

Restoration

- All work sites will be restored to as near their original undisturbed condition as possible, all cleanup will be to the satisfaction of the school, library, or consortium and any permitting agencies.
- Respondents shall provide a brief description of restoration plan in the response, with the expectation that a more detailed restoration plan will be delivered prior to construction begins.
- Work site restoration will include the placement of seed, mulch, sod, water, gravel,

soil, sand, and all other materials as warranted.

- Backfill material will consist of clean fill. Backfilling, tamping, and compaction will be performed to the satisfaction of the Navajo Nation Broadband Office, the representative of any interested permitting agency, and/or the railroad representative.
- Respondent will be responsible for any restoration complaints arising within one year after the Navajo Nation Broadband Office's final acceptance.
- Excess material will be disposed of properly.
- Debris from clearing operations will be properly disposed of by the respondent/subcontractors as required by permitting agencies or the railroad. Railroad ties, trees, stumps or any foreign debris will be removed, stacked, or disposed of by the respondent as per requirements by other interested permitting agencies, and/or the Navajo Nation Broadband Office.
- Road shoulders, roadbeds, and railroad property will be dressed up at the end of each day. No payment for installation will be permitted until cleanup has been completed to the satisfaction of any permitting agencies, and/or the Navajo Nation Broadband Office.
- Site clean-up will include the restoration of all concrete, asphalt, or other paving materials to the satisfaction of the other interested permitting agencies, and/or the Navajo Nation Broadband Office.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

What's New

Line 3a has been modified to clarify how a disregarded entity completes this line. An LLC that is a disregarded entity should check the appropriate box for the tax classification of its owner. Otherwise, it should check the "LLC" box and enter its appropriate tax classification.

New line 3b has been added to this form. A flow-through entity is required to complete this line to indicate that it has direct or indirect foreign partners, owners, or beneficiaries when it provides the Form W-9 to another flow-through entity in which it has an ownership interest. This change is intended to provide a flow-through entity with information regarding the status of its indirect foreign partners, owners, or beneficiaries, so that it can satisfy any applicable reporting requirements. For example, a partnership that has any indirect foreign partners may be required to complete Schedules K-2 and K-3. See the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS is giving you this form because they

must obtain your correct taxpayer identification number (TIN), which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-INT (interest earned or paid).
- Form 1099-DIV (dividends, including those from stocks or mutual funds).
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds).
- Form 1099-NEC (nonemployee compensation).
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers).
- Form 1099-S (proceeds from real estate transactions).
- Form 1099-K (merchant card and third-party network transactions).
- Form 1098 (home mortgage interest), 1098-E (student loan interest), and 1098-T (tuition).
- Form 1099-C (canceled debt).
- Form 1099-A (acquisition or abandonment of secured property).

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

Caution: If you don't return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See *What is backup withholding*, later.

By signing the filled-out form, you:

1. Certify that the TIN you are giving is correct (or you are waiting for a number to be issued);
2. Certify that you are not subject to backup withholding; or
3. Claim exemption from backup withholding if you are a U.S. exempt payee; and
4. Certify to your non-foreign status for purposes of withholding under chapter 3 or 4 of the Code (if applicable); and
5. Certify that FATCA code(s) entered on this form (if any) indicating that you are exempt from the FATCA reporting is correct. See *What Is FATCA Reporting*, later, for further information.

Note: If you are a U.S. person and a requester gives you a form other than Form W-9 to request your TIN, you must use the requester's form if it is substantially similar to this Form W-9.

Definition of a U.S. person. For federal tax purposes, you are considered a U.S. person if you are:

- An individual who is a U.S. citizen or U.S. resident alien;
- A partnership, corporation, company, or association created or organized in the United States or under the laws of the United States;
- An estate (other than a foreign estate); or
- A domestic trust (as defined in Regulations section 301.7701-7).

Establishing U.S. status for purposes of chapter 3 and chapter 4 withholding. Payments made to foreign persons, including certain distributions, allocations of income, or transfers of sales proceeds, may be subject to withholding under chapter 3 or chapter 4 of the Code (sections 1441–1474). Under those rules, if a Form W-9 or other certification of non-foreign status has not been received, a withholding agent, transferee, or partnership (payor) generally applies presumption rules that may require the payor to withhold applicable tax from the recipient, owner, transferor, or partner (payee). See Pub. 515, *Withholding of Tax on Nonresident Aliens and Foreign Entities*.

The following persons must provide Form W-9 to the payor for purposes of establishing its non-foreign status.

- In the case of a disregarded entity with a U.S. owner, the U.S. owner of the disregarded entity and not the disregarded entity.
- In the case of a grantor trust with a U.S. grantor or other U.S. owner, generally, the U.S. grantor or other U.S. owner of the grantor trust and not the grantor trust.
- In the case of a U.S. trust (other than a grantor trust), the U.S. trust and not the beneficiaries of the trust.

See Pub. 515 for more information on providing a Form W-9 or a certification of non-foreign status to avoid withholding.

Foreign person. If you are a foreign person or the U.S. branch of a foreign bank that has elected to be treated as a U.S. person (under Regulations section 1.1441-1(b)(2)(iv) or other applicable section for chapter 3 or 4 purposes), do not use Form W-9. Instead, use the appropriate Form W-8 or Form 8233 (see Pub. 515). If you are a qualified foreign pension fund under Regulations section 1.897(l)-1(d), or a partnership that is wholly owned by qualified foreign pension funds, that is treated as a non-foreign person for purposes of section 1445 withholding, do not use Form W-9. Instead, use Form W-8EXP (or other certification of non-foreign status).

Nonresident alien who becomes a resident alien. Generally, only a nonresident alien individual may use the terms of a tax treaty to reduce or eliminate U.S. tax on certain types of income. However, most tax treaties contain a provision known as a saving clause. Exceptions specified in the saving clause may permit an exemption from tax to continue for certain types of income even after the payee has otherwise become a U.S. resident alien for tax purposes.

If you are a U.S. resident alien who is relying on an exception contained in the saving clause of a tax treaty to claim an exemption from U.S. tax on certain types of income, you must attach a statement to Form W-9 that specifies the following five items.

1. The treaty country. Generally, this must be the same treaty under which you claimed exemption from tax as a nonresident alien.
2. The treaty article addressing the income.
3. The article number (or location) in the tax treaty that contains the saving clause and its exceptions.
4. The type and amount of income that qualifies for the exemption from tax.
5. Sufficient facts to justify the exemption from tax under the terms of the treaty article.

Example. Article 20 of the U.S.-China income tax treaty allows an exemption from tax for scholarship income received by a Chinese student temporarily present in the United States. Under U.S. law, this student will become a resident alien for tax purposes if their stay in the United States exceeds 5 calendar years. However, paragraph 2 of the first Protocol to the U.S.-China treaty (dated April 30, 1984) allows the provisions of Article 20 to continue to apply even after the Chinese student becomes a resident alien of the United States. A Chinese student who qualifies for this exception (under paragraph 2 of the first Protocol) and is relying on this exception to claim an exemption from tax on their scholarship or fellowship income would attach to Form W-9 a statement that includes the information described above to support that exemption.

If you are a nonresident alien or a foreign entity, give the requester the appropriate completed Form W-8 or Form 8233.

Backup Withholding

What is backup withholding? Persons making certain payments to you must under certain conditions withhold and pay to the IRS 24% of such payments. This is called "backup withholding." Payments that may be subject to backup withholding include, but are not limited to, interest, tax-exempt interest, dividends, broker and barter exchange transactions, rents, royalties, nonemployee pay, payments made in settlement of payment card and third-party network transactions, and certain payments from fishing boat operators. Real estate transactions are not subject to backup withholding.

You will not be subject to backup withholding on payments you receive if you give the requester your correct TIN, make the proper certifications, and report all your taxable interest and dividends on your tax return.

Payments you receive will be subject to backup withholding if:

1. You do not furnish your TIN to the requester;
2. You do not certify your TIN when required (see the instructions for Part II for details);
3. The IRS tells the requester that you furnished an incorrect TIN;
4. The IRS tells you that you are subject to backup withholding because you did not report all your interest and dividends on your tax return (for reportable interest and dividends only); or
5. You do not certify to the requester that you are not subject to backup withholding, as described in item 4 under "*By signing the filled-out form*" above (for reportable interest and dividend accounts opened after 1983 only).

Certain payees and payments are exempt from backup withholding. See *Exempt payee code*, later, and the separate Instructions for the Requester of Form W-9 for more information.

See also *Establishing U.S. status for purposes of chapter 3 and chapter 4 withholding*, earlier.

What Is FATCA Reporting?

The Foreign Account Tax Compliance Act (FATCA) requires a participating foreign financial institution to report all U.S. account holders that are specified U.S. persons. Certain payees are exempt from FATCA reporting. See *Exemption from FATCA reporting code*, later, and the Instructions for the Requester of Form W-9 for more information.

Updating Your Information

You must provide updated information to any person to whom you claimed to be an exempt payee if you are no longer an exempt payee and anticipate receiving reportable payments in the future from this person. For example, you may need to provide updated information if you are a C corporation that elects to be an S corporation, or if you are no longer tax exempt. In addition, you must furnish a new Form W-9 if the name or TIN changes for the account, for example, if the grantor of a grantor trust dies.

Penalties

Failure to furnish TIN. If you fail to furnish your correct TIN to a requester, you are subject to a penalty of \$50 for each such failure unless your failure is due to reasonable cause and not to willful neglect.

Civil penalty for false information with respect to withholding. If you make a false statement with no reasonable basis that results in no backup withholding, you are subject to a \$500 penalty.

Criminal penalty for falsifying information. Willfully falsifying certifications or affirmations may subject you to criminal penalties including fines and/or imprisonment.

Misuse of TINs. If the requester discloses or uses TINs in violation of federal law, the requester may be subject to civil and criminal penalties.

Specific Instructions

Line 1

You must enter one of the following on this line; **do not** leave this line blank. The name should match the name on your tax return.

If this Form W-9 is for a joint account (other than an account maintained by a foreign financial institution (FFI)), list first, and then circle, the name of the person or entity whose number you entered in Part I of Form W-9. If you are providing Form W-9 to an FFI to document a joint account, each holder of the account that is a U.S. person must provide a Form W-9.

- **Individual.** Generally, enter the name shown on your tax return. If you have changed your last name without informing the Social Security Administration (SSA) of the name change, enter your first name, the last name as shown on your social security card, and your new last name.

Note for ITIN applicant: Enter your individual name as it was entered on your Form W-7 application, line 1a. This should also be the same as the name you entered on the Form 1040 you filed with your application.

- **Sole proprietor.** Enter your individual name as shown on your Form 1040 on line 1. Enter your business, trade, or “doing business as” (DBA) name on line 2.

- **Partnership, C corporation, S corporation, or LLC, other than a disregarded entity.** Enter the entity’s name as shown on the entity’s tax return on line 1 and any business, trade, or DBA name on line 2.

- **Other entities.** Enter your name as shown on required U.S. federal tax documents on line 1. This name should match the name shown on the charter or other legal document creating the entity. Enter any business, trade, or DBA name on line 2.

- **Disregarded entity.** In general, a business entity that has a single owner, including an LLC, and is not a corporation, is disregarded as an entity separate from its owner (a disregarded entity). See Regulations section 301.7701-2(c)(2). A disregarded entity should check the appropriate box for the tax classification of its owner. Enter the owner’s name on line 1. The name of the owner entered on line 1 should never be a disregarded entity. The name on line 1 should be the name shown on the income tax return on which the income should be reported. For

example, if a foreign LLC that is treated as a disregarded entity for U.S. federal tax purposes has a single owner that is a U.S. person, the U.S. owner’s name is required to be provided on line 1. If the direct owner of the entity is also a disregarded entity, enter the first owner that is not disregarded for federal tax purposes. Enter the disregarded entity’s name on line 2. If the owner of the disregarded entity is a foreign person, the owner must complete an appropriate Form W-8 instead of a Form W-9. This is the case even if the foreign person has a U.S. TIN.

Line 2

If you have a business name, trade name, DBA name, or disregarded entity name, enter it on line 2.

Line 3a

Check the appropriate box on line 3a for the U.S. federal tax classification of the person whose name is entered on line 1. Check only one box on line 3a.

IF the entity/individual on line 1 is a(n) . . .	THEN check the box for . . .
• Corporation	Corporation.
• Individual or • Sole proprietorship	Individual/sole proprietor.
• LLC classified as a partnership for U.S. federal tax purposes or • LLC that has filed Form 8832 or 2553 electing to be taxed as a corporation	Limited liability company and enter the appropriate tax classification: P = Partnership, C = C corporation, or S = S corporation.
• Partnership	Partnership.
• Trust/estate	Trust/estate.

Line 3b

Check this box if you are a partnership (including an LLC classified as a partnership for U.S. federal tax purposes), trust, or estate that has any foreign partners, owners, or beneficiaries, and you are providing this form to a partnership, trust, or estate, in which you have an ownership interest. You must check the box on line 3b if you receive a Form W-8 (or documentary evidence) from any partner, owner, or beneficiary establishing foreign status or if you receive a Form W-9 from any partner, owner, or beneficiary that has checked the box on line 3b.

Note: A partnership that provides a Form W-9 and checks box 3b may be required to complete Schedules K-2 and K-3 (Form 1065). For more information, see the Partnership Instructions for Schedules K-2 and K-3 (Form 1065).

If you are required to complete line 3b but fail to do so, you may not receive the information necessary to file a correct information return with the IRS or furnish a correct payee statement to your partners or beneficiaries. See, for example, sections 6698, 6722, and 6724 for penalties that may apply.

Therefore, if you are only submitting this form for an account you hold in the United States, you may leave this field blank. Consult with the person requesting this form if you are uncertain if the financial institution is subject to these requirements. A requester may indicate that a code is not required by providing you with a Form W-9 with "Not Applicable" (or any similar indication) entered on the line for a FATCA exemption code.

Note: You may wish to consult with the financial institution requesting this form to determine whether the FATCA code and/or exempt payee code should be completed.

Line 5

Enter your address (number, street, and apartment or suite number). This is where the requester of this Form W-9 will mail your information returns. If this address differs from the one the requester already has on file, enter "NEW" at the top. If a new address is provided, there is still a chance the old address will be used until the payor changes your address in their records.

Line 6

Enter your city, state, and ZIP code.

Part I. Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. If you are a resident alien and you do not have, and are not eligible to get, an SSN, your TIN is your IRS ITIN. Enter it in the entry space for the Social security number. If you do not have an ITIN, see *How to get a TIN* below.

If you are a sole proprietor and you have an EIN, you may enter either your SSN or EIN.

If you are a single-member LLC that is disregarded as an entity separate from its owner, enter the owner's SSN (or EIN, if the owner has one). If the LLC is classified as a corporation or partnership, enter the entity's EIN.

Note: See *What Name and Number To Give the Requester*, later, for further clarification of name and TIN combinations.

How to get a TIN. If you do not have a TIN, apply for one immediately. To apply for an SSN, get Form SS-5, Application for a Social Security Card, from your local SSA office or get this form online at www.SSA.gov. You may also get this form by calling 800-772-1213. Use Form W-7, Application for IRS Individual Taxpayer Identification Number, to apply for an ITIN, or Form SS-4, Application for Employer Identification Number, to apply for an EIN. You can apply for an EIN online by accessing the IRS website at www.irs.gov/EIN. Go to www.irs.gov/Forms to view, download, or print Form W-7 and/or Form SS-4. Or, you can go to www.irs.gov/OrderForms to place an order and have Form W-7 and/or Form SS-4 mailed to you within 15 business days.

If you are asked to complete Form W-9 but do not have a TIN, apply for a TIN and enter "Applied For" in the space for the TIN, sign and date the form, and give it to the requester. For interest and dividend payments, and certain payments made with respect to readily tradable instruments, you will generally have 60 days to get a TIN and give it to the requester before you are subject to backup withholding on payments. The 60-day rule does not apply to other types of payments. You will be subject to backup withholding on all such payments until you provide your TIN to the requester.

Note: Entering "Applied For" means that you have already applied for a TIN or that you intend to apply for one soon. See also *Establishing U.S. status for purposes of chapter 3 and chapter 4 withholding*, earlier, for when you may instead be subject to withholding under chapter 3 or 4 of the Code.

Caution: A disregarded U.S. entity that has a foreign owner must use the appropriate Form W-8.

Part II. Certification

To establish to the withholding agent that you are a U.S. person, or resident alien, sign Form W-9. You may be requested to sign by the withholding agent even if item 1, 4, or 5 below indicates otherwise.

For a joint account, only the person whose TIN is shown in Part I should sign (when required). In the case of a disregarded entity, the person identified on line 1 must sign. Exempt payees, see *Exempt payee code*, earlier.

Signature requirements. Complete the certification as indicated in items 1 through 5 below.

1. Interest, dividend, and barter exchange accounts opened before 1984 and broker accounts considered active during 1983. You must give your correct TIN, but you do not have to sign the certification.

2. Interest, dividend, broker, and barter exchange accounts opened after 1983 and broker accounts considered inactive during 1983. You must sign the certification or backup withholding will apply. If you are subject to backup withholding and you are merely providing your correct TIN to the requester, you must cross out item 2 in the certification before signing the form.

3. Real estate transactions. You must sign the certification. You may cross out item 2 of the certification.

4. Other payments. You must give your correct TIN, but you do not have to sign the certification unless you have been notified that you have previously given an incorrect TIN. "Other payments" include payments made in the course of the requester's trade or business for rents, royalties, goods (other than bills for merchandise), medical and health care services (including payments to corporations), payments to a nonemployee for services, payments made in settlement of payment card and third-party network transactions, payments to certain fishing boat crew members and fishermen, and gross proceeds paid to attorneys (including payments to corporations).

5. Mortgage interest paid by you, acquisition or abandonment of secured property, cancellation of debt, qualified tuition program payments (under section 529), ABLE accounts (under section 529A), IRA, Coverdell ESA, Archer MSA or HSA contributions or distributions, and pension distributions. You must give your correct TIN, but you do not have to sign the certification.

Secure Your Tax Records From Identity Theft

Identity theft occurs when someone uses your personal information, such as your name, SSN, or other identifying information, without your permission to commit fraud or other crimes. An identity thief may use your SSN to get a job or may file a tax return using your SSN to receive a refund.

To reduce your risk:

- Protect your SSN,
- Ensure your employer is protecting your SSN, and
- Be careful when choosing a tax return preparer.

If your tax records are affected by identity theft and you receive a notice from the IRS, respond right away to the name and phone number printed on the IRS notice or letter.

If your tax records are not currently affected by identity theft but you think you are at risk due to a lost or stolen purse or wallet, questionable credit card activity, or a questionable credit report, contact the IRS Identity Theft Hotline at 800-908-4490 or submit Form 14039.

For more information, see Pub. 5027, Identity Theft Information for Taxpayers.

Victims of identity theft who are experiencing economic harm or a systemic problem, or are seeking help in resolving tax problems that have not been resolved through normal channels, may be eligible for Taxpayer Advocate Service (TAS) assistance. You can reach TAS by calling the TAS toll-free case intake line at 877-777-4778 or TTY/TDD 800-829-4059.

Protect yourself from suspicious emails or phishing schemes.

Phishing is the creation and use of email and websites designed to mimic legitimate business emails and websites. The most common act is sending an email to a user falsely claiming to be an established legitimate enterprise in an attempt to scam the user into surrendering private information that will be used for identity theft.

The IRS does not initiate contacts with taxpayers via emails. Also, the IRS does not request personal detailed information through email or ask taxpayers for the PIN numbers, passwords, or similar secret access information for their credit card, bank, or other financial accounts.

If you receive an unsolicited email claiming to be from the IRS, forward this message to phishing@irs.gov. You may also report misuse of the IRS name, logo, or other IRS property to the Treasury Inspector General for Tax Administration (TIGTA) at 800-366-4484. You can forward suspicious emails to the Federal Trade Commission at spam@uce.gov or report them at www.ftc.gov/complaint. You can contact the FTC at www.ftc.gov/idtheft or 877-IDTHEFT (877-438-4338). If you have been the victim of identity theft, see www.IdentityTheft.gov and Pub. 5027.

Go to www.irs.gov/IdentityTheft to learn more about identity theft and how to reduce your risk.

The person collecting this form uses the information on the form to file information returns with the IRS, reporting the above information. Routine uses of this information include giving it to the Department of Justice for civil and criminal litigation and to cities, states, the District of Columbia, and U.S. commonwealths and territories for use in administering their laws. The information may also be disclosed to other countries under a treaty, to federal and state agencies to enforce civil and criminal laws, or to federal law enforcement and intelligence agencies to combat terrorism. You must provide your TIN whether or not you are required to file a tax return. Under section 3406, payors must generally withhold a percentage of taxable interest, dividends, and certain other payments to a payee who does not give a TIN to the payor.
